DETAILED ACTION

1. Claims 1-12 are in the application.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings filed 9/8/2004 are considered Informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation “with exterior dimensions of, and within the maximum dimension tolerances of, any standard shipping container as defined in Australia and New Zealand (AS/NZS 3711.1:1993), International (ISO1496), or British (BS 3951) standards.”, as in claim 1, and “that has standard shipping container corner fittings, as described in AS/NZS 3711.3:1993, ISO1161 and BS 3951 standards, positioned at spatial intervals as described in AS/NZS 3711.1:1993,

1501496) or BS 3951 standards and within the tolerances as described therein.” as in claim 3 makes claims 1-12 indefinite for the metes and bounds of the invention can not be determined.

The listed standards are subject to change and can not be used to define the limits of the invention claimed.

In claims 4-12 there is no proper antecedent for “the port or starboard bow sections; nor for “the port and starboard stern sections”; nor for “the base section”.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hopper (1,106,307), Lawson (1,114,996), Adams (1,246,373), Horak (1,932,245), Henry (2,880,429) Scott (GB 2,152,442), and Lanchier (2,611,645) disclose collapsible boats that collapse into a configuration substantially smaller than the uncollapsed condition.
